

Submitter: Jen Martinek

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB 2025 will provide vital funds to keep public transit operational in Oregon. Elements of this legislation will ensure transportation access and equity for Oregonians who rely on public transit for work, school, health care services, and more. Without investment in public transit, already vulnerable Oregonians will be the ones who suffer.

Please support HB 2025 to keep Oregonians like myself moving!
