

Submitter: Michelle Tilley

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Hi,

I am a proud voting democrat from Portland. That said, I strongly oppose any increase in taxes that will directly impact those that live and work in the state of Oregon. Oregon homeowners and workers bear the burden of our current tax structure. I would support a bill that would create a true sales tax (not one that is solely associated with auto purchases), and reduce our property and income tax. Let those that travel here for business or leisure pay their fare share of what it costs to maintain and update our roadways. Please do not burden us with another piecemeal tax increase.
