Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I respectfully oppose this bill. I am unable to afford additional taxes especially when there are other options. The solution is always more taxes rather than how can we be more efficient. I would kindly request that you look at the other side of the fence rather than only seeing from your perspective. We already know that ODOT has mismanaged its current funds. Will giving them more solve the problem? I doubt. It is time to take a pause and audit ODOT. We need to focus on the main mission of ODOT which is roads.
