The website is broken and won't allow a person to sign up for a verbal testimony despite the instructions on the website. I've made several attempts to sign up to no avail. I also called twice today to get help concerning this with zero response. I also, emailed with the same results. I took the night off work in the hopes that I could be heard, not just by the legislative body, but also with people in similar situations. It's a dereliction of duty that a citizen cant publicly comment in a public hearing. It's a shame.
