

Submitter: Daryl Creech

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am against the proposed huge tax increases.

I understand we need to improve our roads and bridges, but please do so with MINIMAL tax increases.

Find savings in what you already have first, be more efficient with what you have.

Please stop increasing funding for bus service, bike lanes, and anything else that is not a road or bridge.

Roads and Bridges only, not all the extra "fluff" that sounds nice but is not necessary.

We are tired of paying for all the extras.
