Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Given the already struggling economy as well as high level of inflation, driving up food and housing costs already. Now is not the time to add further burden to our citizens with even more taxes on fuel and vehicle ownership costs. We should instead be focusing on internal review and cost reductions to make the most efficient use of the resources we already have before we add more burdens on the people.
