

Submitter: Naomi Walchak
On Behalf Of: My Family and Friends. My neighbors and
Community
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

As many of my neighbors, I work on location providing services to humans and do not have the priviledfe of “working from home”. The chances are pretty great that when the big one comes I will need to walk 10 miles to get back to my child who will still be on the peninsula, without a parent or any family because we are in other neighborhoods providing services to other children and families.

Please let there be a single bridge for me to cross to get the final mile home. The cut will be impassable and my heart and many others will break. Please make the budget take care of the hard working families in way North Portland. Do not leave my child stranded. Thank you.
