Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My wife and I are in our 70's and live within our means. The State legislature's democrat super majority seems to have never considered this style of handling our state's finances. The tax paying public is not bottomless purse that can be exploited at will. Following this practice of overspending and increasing taxes is destroying the state's future as a viable place for new businesses and non-government subsidized citizens.
