

Submitter: Levi Korkow

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Enough is enough with these new taxes and increases. It's already hard enough to get by with what we already pay. You're going to continue to drive people away and businesses away. Stop increasing and stop wasting our hard earned money on wasteful spending, if you did that this wouldn't be happening, we the hard working people of this state wouldn't be struggling to survive and worry if we can afford groceries for our families.
