

Submitter: Howard Holt

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB 2025 and any push by the state of Oregon to raise taxes. Gas is already terribly expensive; a huge chunk of my paycheck is already stolen by state and federal governments before I even receive my hard-earned money. Slapping increases on taxes for DMV, new car buying and the stupid vehicle privilege tax is just outright greedy and communistic. Government wasn't created to become so bloated and focus on ways to take ever more of our money. If you focus on government waste and fraud, getting rid of all illegal immigrants, and encourage economic growth through lowering rules and regulations for businesses, the people of this state will thrive, and the government will return to serve the people instead of serving themselves.
