Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Hello,

I live in St Johns in North Portland. I love our neighborhood. But I am scared of what will happen if the big earthquake comes in my lifetime.

We bear the burden of storing oil and gas for the Pacific Northwest.

Give us an exit route should the big earthquake come and crumble every bridge into and out of St. Johns.

It's only just and then you will sleep at night that you didn't vote against a bill that could potentially save tens of thousands of residents.

Thank you.

Judy
