Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB 2025 in its current form. I concur with the concerns set forth in testimony submitted by Dr. Eric Fruits "From Gas Tank to Paycheck: Oregon's Plan to Tax Everything That Moves."

Please do not recommend a "Do Pass" for HB 2025 in its current form. I urge you to consider the cuts and reforms as proposed by the Senate and House Republicans.

Thank you for your consideration of these critical issues.
