

Submitter: Michele Barry

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a resident of the city of Estacada. I work in Portland, but bought my house 34 miles away because I couldn't afford to buy near my place of employment. If HB 2025 passes, I would have to pay even more money in gas due to the tax increase, to cover my 68 mile round trip daily commute.

The citizens of Oregon are already struggling with trying to pay our utilities and put food on the table. We can not afford all of the extra costs that this bill would require from us. I oppose HB 2025.
