

Submitter: Cody Pullen

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose hb 2025 on the grounds that we as Oregonian's don't need more taxes put on us right now. The prices of everything are too expensive for the blue collar people that make this state work and move. We need the state to follow federal standards to keep recieving federal dollars and not squeeze the life out of us financially.
