

Submitter: Derrick Lenzer

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I simply cannot support HB2025 because I simply cannot afford to. I'm a small business owner and everything about this bill will hurt me and my customers. This will be a business killer because either the business would absorb the new costs and die of taxation or customers will cancel due to price increases due to taxation. Either way, it would kill my successful business when I chose to keep the business in Oregon despite other businesses fleeing Oregon. Help support small business in Oregon rather than taxing it to death.
