Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose all of these excessive taxes! We are barely making it now. We have made changes to our lives to support our greedy government now. We simply can't afford all of these new taxes. It is criminal that you can literally put a self sustaining family like ourselves in a position of panic because we don't know if we will be able to afford to live. This is wrong on every level. It seems you need to live on a budget like your constituents. Do not pass this horrendous bill
