

Submitter: Nancy Marston

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose the legislature passing this bill at the expense of the taxpayers. I want to see accountability for what has been done with the funds you have extracted from the taxpayers up to now. To lay the burden on the taxpayers for your lack of governing in a fiscally responsible way besides the lack of federal funds which you have stopped on a principle you did not take to the taxpayers to vote on is not fair or just. More people will move out of Oregon because you will have made this state unaffordable.
