Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

What happened to representing the will of the people?

These decisions are based on promoting self interests or greed because they do not make sense.

Citizens and businesses are leaving every day because of the cost of living here (and crime and homelessness which are not being seriously addressed. Try the My Father's House model).

Why would you make Oregon the most expensive place to live under those circumstances?

Just make all agencies cut their budgets across the board like we have to do in our homes.

I certainly won't be voting for any democrats anymore and I would move if I was younger.
