I strongly oppose this egregious financial assault on hard working Oregonians. If this passes, Democrats will be the top cause of homelessness and poverty in Oregon. Because of high taxes and anti-business policies, Oregon is already hemorrhaging businesses and jobs. This will make it much worse. This legislature seems to be doing all it can to financially destroy its citizens. They have no empathy for the plight of Oregon's families. Where is all the money going?!@ Make government responsible for staying within a budget, just like we have to. NO on 2025!
