On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose House Bill 2025, the so-called "Transportation Reinvestment Package," which imposes over 35 new taxes and fees on Oregonians. This bill unfairly targets working families, raising costs on essentials like gas, car sales, and even paychecks at a time when many are already struggling financially. Such a sweeping increase in financial burdens is unsustainable and disregards the economic challenges faced by everyday Oregonians. I urge legislators to reject HB2025 and prioritize policies that support, rather than strain, our communities.

Thank you
