

Submitter: Nathan Rohan

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This bill will negatively affect every household without any upside or benefit. Gas prices are already much higher than they should be. Government programs in Oregon have little to no real oversight. Clean the waste, fraud, abuse of what our tax dollars fund before trying to pry our wallets open even more. Your positions are not power positions, they are service positions. You are to serve and represent the people and protect us from what you are trying to accomplish. Put down your ego and become the public servant you were voted to be.
