Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am not one to get involved in Politics however I do have to stand against this bill!

As a small business owner we can NOT afford anymore taxes. It's got to stop.

Our government needs to find a way to do with what you have now and also with less. The working class is hurting.

Small businesses are hurting. We have small businesses closing left and right in Downtown Albany because they can not keep up even with the way it is now.

No more taxes. Not to mention our children can't even afford to buy a home or rent.

The powers that be need to do what is right for the people and more taxes is not a solution. Bigger companies and corporations need to start paying what is fair just as the rest of us do.

Start making positive changes and maybe just maybe we will start supporting our government again.
