Measure, Appointment or Topic: HB2025

this is a typical democrat tax and spend boondoggle...odot is one of my main customers and i have direct knowledge that at least half of the duties assigned to them ...they are not qualified to do...managers alway approach me asking if i know anyone hiring..the shop guys hate their union..most despise our governor..the oregon buys system is a joke and insures they arent allowed to buy competitively...i say all this not caring at all if i EVER help odot as i have many times in the past...this division need shaken out like an old dusty rug..the amount of waste and fraud that will come from this will be a record setter...im guessing thats wgat alot of lawmakers are hoping for..our state is short on common sense
