

Submitter: Karen House

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose HB 2025, it's not beneficial to working people, single people and or with families and it's not beneficial to seniors on fixed incomes, it's not beneficial to Oregonians over all taking more money out of everyone's pockets who are just trying to work and live on the income they have. Please take this into consideration and vote down HB 2025, it's not good for Oregon, a state I was born and raised in, my family who has lived here, started businesses and more, we've never wanted to go anyplace else. Thank you.
