I strongly oppose the bill being presented due to the significant tax increases on the working families of Oregon. We're already struggling to make ends meet, yet you are proposing one of the biggest tax bills in recent history. ODOT has failed to account for funds on several occasions. This bill doesn't provide any accountability and is extremely impactful to lower income families in the state of Oregon. We already have some of the highest taxes on fuel and we can't afford a bill like this.

I strongly ask that you vote NO and oppose this transpiration bill.
