

Submitter: Brenda Williams

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am part of the working middle class. I drive 27 miles one way to work Monday through Friday. This transportation bill proposes to raise gas taxes, DMV fees and implement sales tax on new and used vehicles. I strongly oppose this bill. I feel that we are seeing many tax increases in different areas from the state of Oregon. We are being taxed at every opportunity the state can find. We simply cannot afford more taxes with current costs of living we face now. Groceries are utilities went up due to inflation. Oregon wants to add new taxes to for home owners for wildfires. Our employers are not raising our pay to help cover these new taxes. We are just trying to survive at this point. Please vote no on this bill and give the people of Oregon a break from new taxes.
