Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose HB 2025.

We can hardly to afford to live out here as it is, please do not burden us with taking more of our money that we do not have. Please stop taxing us, we need a break. We can hardly afford the basics in life as it is. We can't afford more costs and taxes.

Restructure the budget like we all have been forced to.
