Measure, Appointment or Topic: HB2025

To the Oregon legislators,

Please do not vote yes on HB 2025. I am completely baffled why you would even consider raising our taxes by over \$11 billion in the next 10 years and think that that's OK. People are struggling in this state financially and otherwise. And adding more taxation to that struggle will only cause more challenges for the citizens of the state. Stop it! Think of the citizens that you represent. Do not vote for this.
