

Submitter: Larry Dompierre

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Hello,

If this bill passes and I lose any more money, my family will be at a significant loss. My sister who is a teacher in this community may become homeless this tax does not benefit us and I find it highly Unacceptable that you do not consider the many families that are struggling right now - those of us that are able to still afford Food are buying food that is detrimental to our health. Please hear my outcry that any more taxes, including this large transportation tax will cause Oregonians to suffer in the name of progress.
