This country is experiencing an epidemic of criminal irresponsibility : our tax burdens are being squandered by the \$\$ millions for criminal vagrants , Millions spent annually for tents ;causing environmental disasters. Buildings RENTED to locate 300 criminal vagrants in the Pearl district : like opening the barn of expensive horses to 300 pack of wolves. The Interstate bridge (Titanic project) with 30 YEARS of squandered tax moneys :NORESULTS !!! These problems DO NOT EXIST IN OTHER COUNTRIES : Is America too stupid to call other countries : HOW TO REALLY FIX PROBLEMS : Japan built a 3 mile bridge (tsunami & earthquake PROOF) in 5 years !! Denmark uses all garbage (not recyclable) & turns into Electric POWER. Medical care & universities are FREE. This epidemic of incompetents MUST STOP !!!
