BACKGROUND:

In 1982, the U.S. Supreme Court decided *Plyler v. Doe*, guaranteeing public school enrollment for students regardless of immigration documentation status. Oregon Revised Statute 180.810 requires the Oregon Department of Justice to create [model confidentiality policies](#) for Oregon public bodies to limit, within the bounds of state and federal law, immigration enforcement at public schools and other public facilities. These model policies were most recently updated in February 2025.

In 2011, ICE issued a [memo governing enforcement actions at sensitive locations](#), including K-12 schools and post-secondary institutions. The memo was [revoked](#) in January 2025. On September 9, 2025, ICE issued a [statement](#) indicating that it does not generally conduct enforcement actions at schools and that secondary supervisor approval is required to do so. News reports in [Oregon](#) and [elsewhere](#) indicate that ICE enforcement actions can impact school operations.
