EFFECT OF AMENDMENT:

-A7 The amendment replaces the measure and instead updates the draft Western Oregon State Forest Habitat Conservation Plan to increase timber harvest from state forests in western Oregon, consistent with Alternative 5 in the Draft Environmental Impact Statement. It directs the Oregon Department of Forestry to submit the updated habitat conservation plan to U.S. Fish and Wildlife Service and the National Marine Fisheries Service. It exempts implementation of this provision from the Administrative Procedures Act.

FISCAL: May have fiscal impact, but no statement yet issued

REVENUE: May have revenue impact, but no statement yet issued

BACKGROUND:

The Bureau of Land Management (BLM) and the U.S. Forest Service manage federally owned lands in Oregon. When authorized under federal law, these agencies may dispose of certain parcels through competitive sales or negotiated transactions. BLM land sales generally involve undeveloped public lands without improvements. The bureau may also conduct land exchanges with other landowners to consolidate federal holdings and support land management objectives.
