Work Session Recommendations

HB 4040 is an omnibus measure that modifies existing regulatory frameworks related to health care, including workforce regulation, professional licensure, insurance coverage, Medicaid administration, and patient protections. These modifications include but are not limited to directing the Legislative Policy and Research Office to establish a pilot program for the insurance coverage mandate impact statement template, permitting the Oregon Health Authority to enroll an eligible person in prerelease benefits and allowing parent providers to work as personal support workers.

The measure is expected to have a minimal fiscal impact on the Legislative Policy and Research Office, the Oregon Health Authority, and the Department of Human Services.
