

Get SB 1585A to the floor!

Equitable Grant Access for Oregon's Cities

From the Desk of
Representative
David Gomberg

OVER 200 OREGON CITIES CAN BENEFIT FROM THIS LEGISLATION!

Senate Bill 1585A levels the playing field for cities when accessing critical infrastructure repairs and upgrades. Makes it easier for cities to apply for grants and execute projects by lowering the matching funds requirements on a sliding scale based on population. The bill will open up the allowable uses of these grants to help cities manage and afford these important projects for seven grant programs: 1.) Safe Routes to School, 2.) Connect Oregon, 3.) Oregon Community Paths, 4.) Special Public Works Fund (Levee), 5.) Local Government Grant Program, 6.) Water Projects Planning Studies, and 7.) Water Supply Development.

Cities and County Commissioners stand in support of SB 1585A:

SB 1585A supports ALL of Oregon by helping critical infrastructure projects move forward, promoting a strong economy and workforce for all communities in the state!
