Kevin Goodrich

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

Protecting taxpayer-funded extinguishment of innocent life is NOT within the scope of a representative government! Affirming a false "belief" of biological facts is yet another abysmal anathema to Source of our existence. Stop it! Immediately cease all subsidies and cauterize the taxpayer-funded money flow by not just opposing this shameful Malthusian legislation, but investigating other financial pathways out of Oregon's capitol that accelerates deplorable debauchery is much needed and highly encouraged. Thank you.
