

I am against HB 4153

This bill is designed to destroy exclusive farm use zoning and destroy the land use system that makes Oregon special. I don't want Oregon to be Florida or Texas.

In Hood River County, there are innumerable entertainment and retail conglomerates just waiting for a bill like this in order to buy up our farm land and plaster it with concert venues, commercial events, and food service outlets. This bill has so many loopholes that none of these operations need have any real basis in local farming. This is a terrible bill and the wrong path for Oregon.

Thank you.

Elizabeth Foster
