Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This measure fails to address actual crime, and appears very much to be an attempt to bully firearm owners and future owners exercising their Second Amendment rights by creating an endless maze of new regulations and restrictions, costs, and training that law enforcement has already declared impossible to meet.

Let's start address the actual roots of gun crime, shall we? Harassment of legal practice of Second Amendment rights solves nothing, but you already know this.
