Marlene Acker

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

At no time will I support this!

If people want to mutilate their bodies, they can do it on their own dime.

At this time when the budget is considering being cut in all departments, passing of this bill is outrageously one in the "not needed" department.

Years later when these people figure out what they have done, the lawsuits will never end. Ever think of that?
