Measure, Appointment or Topic: HB4145

I think a permit to purchase limits access to firearms to those that are lower income and single females. Some people are just trying to have protection against threats or to feel safe in our day to day lives. With all the craziness going on in our world we have a right to feel safe and be able to protect ourselves. Let alone it goes against the constitutions right to bear arms. Those that are lower income and or single females who want to get a firearm shouldn't have to also purchase a permit and take a expensive class before even being able to get the permit. Everyone who is legally allowed to have a firearm should be able to go purchase without all the hoops to jump threw. People already go through a background check provide fingerprints id and address. In closing to impose such constraints on the people would inherently inhibit all of us from protecting ourselves in a timely manner. I strongly oppose
