Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I enthusiastically support this much-needed new source of funding for Oregon's non-game wildlife management, as well as its other aims regarding predator-loss mitigation and anti-poaching efforts. I know its well-meaning opponents see economic harm. But it is up to our citizen representatives to see through that to the long game--namely establishing critical funding to support our wildlife for many decades to come. Thank you.
