HB4145

Dear Committee-

HB4145 picks up where Measure 114 left off without addressing the core contributing factors for violent crime on our streets. HB4145 continues to put the 'blame' on responsible citizens while doing nothing to correct repeat offenders, illegal alien violent crimes, or mental health concerns. Strongly oppose this bill and any others like it! I'm engaged in this process and will continue to vote to remove any representative that supports limiting my 2A rights.

Regards,

Stephen Full
