I am opposed to all new laws against the second amendment State or federal. This law violates not only State constitution it also violates federal constitution. What other constitutional rights force people to buy a permit for? What's next? We have to get training and purchase a permit for our other constitutional rights. The state of Oregon treats our rights as privilege rather than a right. This law as well of others pushed through in the name of safety has done nothing for safety at all. Just created a financial burden not only on the individual but also on the State of Oregon financially. We are so over taxed in this state already. The State of Oregon is going bankrupt already and lawmakers want to force more financial burden on these unnecessary bills in the name of safety.
