

My opposition to this measure is based on the fact that it will cost the taxpayers of the State dollars that we cannot afford for a measure that will not work for its intended purpose, as well as hold a biased position, allowing "law enforcement" to receive a pass. This casts the citizens of the state as untrustworthy. It will also incur costs trying to get Unconstitutional measure 114 through the courts.

I request that this unfair and biased addition to Measure 144 be completely scrapped.

In point of fact, measure 114 should be scrapped for its Unconstitutionality, cost, and the fact that it will not serve its supposed intended purpose.
