HB4145

As a law-abiding long-time Oregon citizen, this bill creates a special class of citizens that will enjoy the constitutional gun-ownership rights, and removes those rights from ordinary Oregonians. In the words of Greta Thunberg, "How dare you". Additionally you penalize people like me, law-abiding citizens who own guns, by placing costly fees to own guns. The sponsors of this bill are not morons, they know there are no winners; Oregon common folks are certainly the losers.

Shame on everyone who votes in favor of this bill. Shame on those who do not vigorously speak-out against it.

Respectfully submitted in strong opposition to HB4145
