

Matthew Bunch

HB4145

02 February 2026

In Opposition to Proposed House Bill

I, Matthew Bunch testify against the proposal of HB4145 as not only is Measure 114 under legal scrutiny, but the House wants to increase the number of delays and increase costs for those with the constitutional, legal right to arm. I declare those that think they are above us and our rights to be mad and not sane.

Double Time, Double Cost

Under HB4145, the time to issue permits to those legally granted will be doubled from 30 days. And permit costs will be more than doubled from Sixty Five to One Hundred and Thirty Five U.S. dollars. An outrageous proposal that only taxes those with the legal right to bear and keep arms, timely and financially.

CONCLUSION

I oppose HB4145 on the basis of its outrageous proposal as it only further strips citizens of this State of their constitutional and legal right to bear and keep arms. Citizens of Oregon and the United States need not have this burden. We Citizens have our rights, they shall not be infringed upon!
