Bravo, Oregon Legislature.

Nothing says 'we respect the will of the voters' like rewriting Measure 114 before the ink's even dry on the court challenges. You've kindly delayed your own gun-grab until 2028 (because apparently four years wasn't enough time to figure out how to make it work), doubled the wait time to a leisurely 60 days, jacked the permit fee from \$65 to \$150 (because nothing screams 'public safety' like a 130% tax on exercising a constitutional right), and carved out a golden VIP exemption so retired probation officers can keep their scary 'weapons of war' while the rest of us plebs get scolded for owning the same magazines.

The only emergency is the one facing common sense in Salem.
