Quinn Jones

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This bill, along with this amendment, will do nothing to change the rising crime rates. Until a statistic can show that this law affects the Oregon people for good we should not even be considering something so drastic. Many other states have tried this to no avail. Their crime is still climbing and the politicians pushing for these laws are doing nothing to actually assist their people.
