

Submitter:

Thomas Putnam

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This expansion of an already questionable measure is terrible. Expanding fees makes those with lower income less able to exercise their rights, and requiring law enforcement permission to purchase a firearm is just asking for biased implementation.

Carving out exemptions to the ten-round magazine ban for current and retired law enforcement, even for private recreational use, is also absurd! 40% of law enforcement officers are also domestic abusers. They should have the same rights and restrictions as everyone else, they are not above the law. Vote no and then get rid of measure 114.
