HB4145

First off I would like to say that this bill is unconstitutional in every way, but not only does it only affect and go after law abiding citizens that follow the law. If someone wants to obtain a firearm illegally then they will, there is no stopping that. Same goes with obtaining "high capacity magazines" you are simply limiting and incapacitating the American people from protecting and defending their life's and property, and or tranny. Same goes with the "permit to perches". All in all they makes drugs illegal correct?, well people still get ahold of them and consume them. Same goes for people that want to do things illegal they will find away around it.
