House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I strongly encourage you to pass this bipartisan legislation to protect Oregon's iconic wildlife. Protecting Oregon's wildlife and their habitats will bolster Oregon's outdoor recreation and tourism economy - it currently supports 192,000 jobs and \$16 billion in consumer spending. Investing in these resources now will help generate even more economic

opportunities for Oregon's communities in the future. This legislation is an important investment in Oregon's present and future, and a reinvestment in the reason so many visitors travel to Oregon.
